

3kW solar full set integrated machine

What is a 3KW solar power system?

3KW solar power system (off-the-grid,standalone) is the obvious alternative to one that is grid-tied. For homeowners that have access to the grid,off-grid solar systems are usually out of question. Here`s why:

What is a 3KW off grid Solar System?

3KW Off Grid Solar System is a great option for people with average power use,living in small homes. They are particularly suited to small families or couples. Optional Mono/Poly Blue/Black Panels High Efficiency with PERC panels available 25 years warranty with 80% power output PV Array Combiner Box SPD surge protection etc

Is a 3KW Solar System a good choice?

Batteries are complicated,expensive and decrease overall system efficiency. 3KW Off Grid Solar System is a great option for people with average power use,living in small homes. They are particularly suited to small families or couples. Optional Mono/Poly Blue/Black Panels High Efficiency with PERC panels available

What is a 3,000 watt string inverter kit?

This 3,000-watt string inverter kit serves as a great entry-level,budget-friendly option for ground sites that receive full sunlight (no shade or obstructions). It's a complete photovoltaic power systemthat works for homes or businesses,and includes everything you need to get your system up and running.

How much space does a 3 kilowatt solar system need?

This 3-kilowatt (kW) kit produces 200 to 550 kilowatt hours (kWh) alternating current (AC) power per month (assuming at least five sun hours per day with the solar array facing south) and requires just 184 square feetof space.

Can webright solar customize my own Solar System solution kit?

WeBright Solar can customize your own complete solar power system solution kit based on your requests. We provide grid-tied,off-grid,hybrid with PV system solutions. Contact Information:
