

A must-have outdoor power bank for autumn travel

Do you need a power bank for a bushcraft tour?

In an emergency, however, you do not know when you will have access to the power grid again. Or on a multi-day Bushcraft tour, you also need to rely on your power bank. The optimal effect is currently achieved by power banks with a capacity of 10000 mAh to 20000 mAh. The interplay between energy density and weight is optimal in these devices.

Why should you buy a portable power bank?

Whether you need to charge your phone, tablet, or laptop, these portable power banks will help keep you connected wherever your travels take you.

Which power bank is best for traveling?

It is quite heavy and bulky but if you need a lot of power, then this is the best available. The Dark Energy Poseidon Waterproof Power Bank is our number one choice for traveling because of the fact that it is almost indestructible.

Which power bank is best for outdoor use?

If you plan to use your power bank for outdoor applications such as hunting, backpacking, and off-roading, we recommend one built to withstand rugged use. On this list, the Nestout 15,000mAh Outdoor Battery, Dark Energy Poseidon Pro 10200, and Wuben Lightok X3 Owl EDC Flashlight are all rated to withstand getting wet.

Do you need a power bank?

Added to this, people are frequently carrying other kit that needs power - for cameras, lighting or entertainment - with them on adventures. This means that carrying a backup source of power has become a priority for many of us. A power bank is basically a portable battery to allow you to easily charge devices on the move.

What makes a good power bank?

Durability determines longevity. Choose power banks with reinforced cable joints and high-grade materials that withstand 10,000+ bend cycles. However, built-in cables add 20-40 grams to overall weight. Consider whether this trade-off suits your mobility requirements versus carrying separate cables.
