

Albania outdoor battery cabinet BMS solution

What is a battery management system (BMS)?

BESS employs a sophisticated, multilevel battery management system (BMS) for system monitoring and control. Each battery management system including: At the lower level is the Module BMS (BMU), which is designed to detect voltage, temperature, and execute cell balance functions for cells.

What is C&I outdoor lithium battery storage cabinet system?

It integrates 215kWh LiFePO4 batteries with BMS, high-voltage box, power distribution system, PCS (Power Conversion System), control system, fire protection system, temperature control system, and EMS (Energy Management system) monitoring system. C&I Outdoor Lithium Battery Storage Cabinet System

What is cx-ci002 outdoor battery storage cabinet?

CX-CI002 Outdoor C&I Battery Storage Cabinet 105KW/215KWh comes with advanced liquid-cooling technology, safe and reliable. Supports OEM/ODM & factory prices.

What is a rack BMS (BCU)?

The rack BMS (BCU) can manage all module BMS units and detects total voltage, current, and executes protection functions by switching DC-contactor as well as interact with PCS by RS485 to perform power limits. Finally, local controller manages rack BMS units (BCU) and PCS.

What is a module BMS (BMU)?

At the lower level is the Module BMS (BMU), which is designed to detect voltage, temperature, and execute cell balance functions for cells. The rack BMS (BCU) can manage all module BMS units and detects total voltage, current, and executes protection functions by switching DC-contactor as well as interact with PCS by RS485 to perform power limits.

These systems perform multi-level early fault warning, analysis, remote monitoring and control, to ensure safe and efficient operation. It uses EV grade lithium iron phosphate battery with long ...
