

# Argentina Energy Storage Project

Does Argentina have a battery energy storage system?

Argentina has taken a major step toward modernizing its energy infrastructure with the launch of a 500 MW battery energy storage system (BESS) tender under the AlmaGBA program.

Does Argentina have a battery storage tender?

Argentina has opened a \$500 million battery storage tender aimed at adding 500 MW of new energy storage capacity in the Buenos Aires metropolitan area. The AlmaGBA program, managed by CAMMESA, offers long-term contracts with fixed payments and financial guarantees to attract developers.

Why is Argentina a good stance on energy storage?

In Argentina, the stance provides a good lesson to the European stakeholders, especially in the commercial and industrial segments of energy storage. Emerging markets can present both local and foreign players by developing tenders that are investment appropriate and clear technically and financially secured.

Will Argentina integrate new electricity storage infrastructure into urban distribution networks?

This national and international open call, part of Resolution SE 67/2025, marks Argentina's first large-scale effort to integrate new electricity storage infrastructure into urban distribution networks.

What is Argentina's contingency plan?

This tender is part of a series of measures that the government of Argentina has been developing since October 2024 with the Contingency Plan, which includes short, medium and long-term actions to recover an electricity system that was in a critical state in December 2023.

Can energy storage be a reliable source of energy?

As the opportunity to build energy storage as a reliable source in grids and to decarbonize becomes critical on a global stage, the oversubscribed tender launched by Argentina demonstrates the demand for scalable and bankable C&I energy storage systems projects, as well as the efficiency of collaborating with the government in their realization.

Search all the ongoing (work-in-progress) battery energy storage system (BESS) projects, bids, RFPs, ICBs, tenders, government contracts, and awards in Argentina with our comprehensive ...

1 day ago; Argentina has concluded its first battery energy storage (BESS) tender, awarding 667 MW of projects--well above the 500 MW target--after receiving bids totaling 1,347 MW from ...

2 days ago; Argentina-based renewables developer Eoliasur, also known as Flexen, on Monday obtained environmental approval for its planned 200-MW stand-alone battery energy storage ...
