

Australian Energy Storage Battery Agent

Who is Battery Works Australia?

Battery Works Australia specializes in battery storage solutions, having transitioned from a battery re-packing business to becoming a leading distributor of battery systems, including Victron Energy products. Their expertise and national distribution capability ensure enhanced system design and technical support for various battery applications.

Will Australia's first battery storage system be operational by 2026?

EnergyAustralia is actively developing Australia's first four-hour utility-scale battery storage system with a capacity of 350 MW, set to be operational by 2026 in Victoria's Latrobe Valley. This project highlights the company's commitment to renewable energy and innovative energy solutions.

Who is stor-energy?

Stor-Energy is a leading and specialist developer, owner and operator of large-scale battery storage systems across Australia's national electricity market.

Why are energy companies investing in battery infrastructure?

Like governments, energy companies are also investing in battery infrastructure, to help strengthen Australia's energy grid. Earlier this year, Synergy began construction on Australia's second-largest battery project to date, the 500MW Collie Battery Energy Storage System (CBESS) in Western Australia [ii].

What is Australia's largest battery system?

This includes Australia's largest system, the 300 MW Victorian Big Battery, and two other batteries. Altogether Neoen owns 670 MW of commercially operational battery capacity--a third of NEM-wide battery capacity. Victorian Big Battery Western Do...

Does Australia offer rebates on small-scale battery systems?

The Australian government has launched their new scheme to support households and small businesses by providing rebates on the installation of small-scale battery systems. Click below to discover how to make the most of the offer. PowerPlus Energy offers innovative energy storage solutions for a sustainable future.
