

Battery cabinet installation sequence base station

Where do I install a line-up and match Battery Cabinet?

Line-up-and-match battery cabinets are installed adjacent to the UPS. The recommended installation location is on the right side of the UPS cabinet as viewed from the front of the cabinet. See Figure 3 for line-up-and-match configuration views. Figure 3. Eaton 93PM 100 kW UPS and Two 93PM Integrated Battery Cabinets

Where is the battery cabinet located?

The battery cabinet may be located to either the right or left of the UPS cabinet. The recommended location is to the right of the UPS cabinet. This procedure assumes the battery cabinet is located to the right of the UPS cabinet. 21.

How many IBCs can be installed in a 93pm integrated battery cabinet?

Standalone IBC installations with three or four IBCs require a customer supplied external tie point and circuit breaker or disconnect between the IBCs and the UPS. Up to four IBCs can be installed in a standalone configuration. Use this procedure to wire standalone 93PM Integrated Battery Cabinets to the 93PM UPS cabinet.

What are the minimum clearance requirements for a base station?

Minimum clearances must be maintained between the cabinets and surrounding building parts/cabinet to accommodate the installation and maintenance of the base station. The following constraints must be considered for cabinet clearances:

Where is the UPS battery cabinet located?

The recommended location is to the right of the UPS cabinet. This procedure assumes the battery cabinet is located to the right of the UPS cabinet. 21. If line-up-and-match installation, remove the rectangular knockout on the bottom front side of the UPS and the IBC (see Figure 15).

Where should battery back-up cabinets be installed?

In line-ups where battery back-up cabinets may be needed, the footprint location must be ascertained ahead of time because batteries cannot be added easily to side-by-side cabinets when battery back-up cabinets are in the center of a line-up. The battery cabinet must be installed adjacent to the power cabinet.

A Chapter 2, "Battery Cabinet Installation Plan and Unpacking" - explains how to prepare the site for the installation of the battery cabinet. It discusses equipment environmental requirements, ...
