

British photovoltaic energy storage container manufacturer

What is a battery energy storage system?

A Battery Energy Storage System (BESS) enables you to capture, store, and control energy generated from sources like solar and wind. It provides greater energy independence, reduces reliance on the grid, and maximises the value of your clean energy investments.

What is a solarfold photovoltaic container?

The Solarfold photovoltaic container can be used anywhere and is characterized by its flexible and lightweight substructure. The semi-automatic electric drive brings the mobile photovoltaic system over a length of almost 130 meters quickly and without effort into operation in a very short time.

How many homes can a solarfold Container Supply?

The on-grid version of the solarfold container is connected directly to the public power grid and can supply up to 40 single-family homes with the energy produced (energy requirement of 3,500 kW/year/single-family house). The solarfold on-grid container can also be expanded with various storage solutions.

We are a start-up organisation specialising in importing and distributing Battery Energy Storage Systems (BESS) to the UK market. Our primary focus is to serve installers, wholesalers, and ...
