

Burkina Faso Portable Power Storage System

In 2023, our company was involved in electrification projects in four rural areas of Burkina Faso, primarily to provide off-grid solar power storage systems for these remote rural communities.

A solar-powered cabinet in Ouagadougou that can power 200 households during blackouts while making coffee for local engineers. Okay, maybe not the coffee part - but Burkina Faso's ...

However, Burkina Faso is rich in solar resources, providing favorable conditions for solar power generation. In 2023, our company was involved in electrification projects in four rural areas of ...
