Can battery energy storage be used to power Cambodia's grid?

"The battery energy storage system will showcase how large-scale deployment of innovative technology applications can be used to operate Cambodia's grid in the future and generate more renewable power."

How much money does ADB give to Cambodia's energy sector?

Since 1994, ADB has awarded nearly \$200 million in loans and grants to Cambodia's energy sector and provided \$6 million in technical assistance. ADB funding has focused on expanding transmission and distribution networks and support for sector reforms and institutional capacity building.

Does Cambodia need a new transmission infrastructure?

While Cambodia has made significant progress in expanding lower-cost power generation in the past 15 years, its existing transmission infrastructure is reaching capacity and needs to be expanded and reinforced to avoid supply interruptions.
