

# Can energy storage be exported overseas

The global energy storage market, valued at \$33 billion annually [1], demands strict adherence to export requirements that vary faster than Tesla's Cybertruck production timeline. Let's unpack ...

Well, here's the thing - the global energy storage market is projected to hit \$50 billion by Q4 2025, with cross-border trade accounting for 63% of lithium-ion battery transactions. But why are ...
