

Canadian photovoltaic microinverter companies

What are the most popular microinverters available in Australia?

Below is our detailed comparison of the most popular microinverters available in the Australian, European, Asian and US markets. Enphase Energy and APsystems are the most well-known microinverter manufacturers, while ZJ Beny, Hoymiles & ZJ Beny recently entered the increasingly competitive market.

Who makes the best microinverter?

Enphase Energy and APsystems are the most well-known microinverter manufacturers, while ZJ Beny, Hoymiles & ZJ Beny recently entered the increasingly competitive market. The latest models added in 2024 are the new 3-phase IQ8-3P series from Enphase, the new SAJ M2 Series, and the NEO 2000M-X quad micro from Growatt.

Why should solar installers use APsystems microinverter?

Additionally, the APsystems microinverter solution gives solar installers a competitive advantage and, when fully utilized, enables installers to install faster and generate more profit than competing systems of the same capacity.

Which microinverters are available in 2024?

The latest models added in 2024 are the new 3-phase IQ8-3P series from Enphase, the new SAJ M2 Series, and the NEO 2000M-X quad micro from Growatt. Since many of these microinverters have just become available, please provide any professional feedback here. Other inverter comparison charts:

What is APsystems microinverter?

The APsystems microinverter solution marks a breakthrough in solar technology, making PV arrays more powerful, smart, reliable, cost effective and safe. Is a premier choice for optimizing your solar energy harvest, simplifying system design and maintenance, and improving safety for both installers and owners.

Does APsystems offer a microinverter warranty?

APsystems offers a microinverter warranty of 25 years. The APsystems microinverter solution combines highly efficient solar harvesting and power conversion with our high-tech data collection and communication program - giving you real-time performance and efficiency about your solar array.
