

Central Asian companies making solar photovoltaic panels

Are China and Kazakhstan preparing for a big solar market?

After years of making big promises to invest in solar, Kazakhstan and Uzbekistan are now competing to open the largest solar fields in Central Asia. And neighboring China, with a surfeit of domestic solar equipment manufacturers nurtured under subsidies that ended two years ago, is gunning for a big role in these fast-growing solar markets.

What is unlocking Solar Capital Asia?

The 2-day conference and networking platform Unlocking Solar Capital Asia, taking place in Singapore, will bring together 200+ investors, financiers, solar developers, IPPs, EPCs & other solar stakeholders interested in developing bankable PV projects in the region.

Does China have solar power?

When it comes to solar power, China is a force to be reckoned with. It is not nearly as immediately apparent that other countries in Asia are also blooming with solar power.

Rise Technology s.r.l. photovoltaic machines located in Italy, thanks to its ten-yearly experience in the PV solar cell production equipment, offers solar panel equipment and integrated services ...
