

Can energy storage solve transboundary water and energy conflict in Central Asia?

A solution for transboundary water and energy conflict in Central Asia is proposed. Benefits of energy storage beyond the energy sector are shown. Long duration energy storage is key for high shares of solar PV and wind energy in the region. An open-access, integrated water and energy system model of Central Asia is developed.

Does Central Asia have an integrated water and energy system?

An open-access, integrated water and energy system model of Central Asia is developed. Central Asia's energy transition to a high share of renewable energy by 2050 is analyzed. Model for Energy Supply Systems Alternatives and their General Environmental Impact 1. Introduction

What are the benefits of energy storage beyond the energy sector?

Benefits of energy storage beyond the energy sector are shown. Long duration energy storage is key for high shares of solar PV and wind energy in the region. An open-access, integrated water and energy system model of Central Asia is developed. Central Asia's energy transition to a high share of renewable energy by 2050 is analyzed.

Is water use a problem in Central Asia?

Introduction Water use for irrigation and electricity generation has long been subject to dispute between downstream and upstream countries in Central Asia .
