

Communication base station wind power station

First, on the basis of in-depth analysis of the operating characteristics and communication load transmission characteristics of the base station, a 5G base station of virtual power plants ...

Recently, 5G communication base stations have steadily evolved into a key developing load in the distribution network. During the operation process, scientific dispatching and management of ...

Here we adopt 5kW wind turbine together with 5kW solar module as the new energy power supply system, it can fully meet the need of those small base station for 24 hours continuous working.
