

Construction of Energy Management System for Cape Verde Base Station Computer Room

Does Cape Verde have electricity?

Cape Verde has but one electricity company (Electra) and Cape Verde has one of the highest electricity prices in the world. Furthermore, the electric system is inefficient and registers energy losses of around 30%.

Is Cape Verde a viable alternative to fossil fuels?

Solid waste can also represent an adequate option while ocean and geothermic energy are being tested, with uncertainties remaining as to their efficiency. Cape Verde has an estimated potential of 2,600 MW of renewable energy, and more than 650 MW have been studied in concrete projects, which have lower production costs than fossil fuels.

What is the EU - Cape Verde special partnership?

The EU - Cape Verde Special Partnership was approved by the Council at the end of 2007 and is now in its implementation phase on the six priority sectors: governance, security, information society, regional integration, normative and technical convergence towards EU standards and fight against poverty.
