

# Cost of Photovoltaic and Solar Panels

How much do solar panels cost?

In addition, the specifications of the panels (such as power) and the cost of installation also play a role. On average, you pay around EUR500 to EUR600 per solar panel, including installation. The cost of solar panels depends on the number of panels and the power per panel. In general, the more panels you buy, the cheaper the price per panel becomes.

Are solar panels worth it?

Solar panels are only ever going to be worth it if you can afford them. Be careful if you need to take out a loan as the interest repayments might be higher than your returns. And while it's important to think about the money, lots of people see the environmental impact as the key reason to invest in solar panels.

How much does a SunPower solar system cost?

You can expect to pay a minimum of \$3.30 per watt for a SunPower solar system, which comes out to about \$19,800 before incentives for the average 6 kW system. SunPower's recent financial performance puts its longevity in question, and may make some consumers wary of relying on the brand. How much does a SunPower installation cost?
