

Cuba Distributed Energy Storage Integrated Cabinet

Is Cuba's energy infrastructure in a precarious state of aging and disrepair?

The report highlights the issue that not only is Cuba's energy infrastructure in a precarious state of aging and disrepair, but also that its entire energy system relies heavily on external aid and imported fossil fuels.

How can Cuba build a more resilient energy system?

Building a Cleaner, More Resilient Energy System in Cuba recommends numerous ways by which domestic policy in Cuba can prioritize working towards a more sustainable, resilient grid -- especially by investing in the energy transition-- and ways in which international cooperation can support these goals.

Should Cuba update its energy grid?

While small-scale, such renewable energy initiatives can reduce pressure on the energy grid and provide relief in especially vulnerable places. Due to rising temperatures and increasingly unreliable energy infrastructure, action to update Cuba's energy grid is urgently necessary.

How can EDF help a Cuban community resilience?

In fact, EDF is making strides by supporting trainings in clean energy solutions in a few Cuba communities via an ecosystem-based adaptation project to increase community resilience funded by the Caribbean Biodiversity Fund.

Paired with top-notch energy storage batteries, it guarantees a stable power supply during the night or at peak-demand times, facilitating energy conservation and emission reduction while ...
