

# Dutch energy storage battery company

Who will build the battery energy storage system in the Netherlands?

Equans Netherlands will take charge of the engineering and construction of the battery storage system. Eneco will optimize the battery to maintain grid balance without increasing local congestion. Dispatch, a Dutch battery developer, is going to construct the Netherlands' largest stand-alone Battery Energy Storage System (BESS).

What is the largest battery storage system in the Netherlands?

The largest operational battery storage system operational in the Netherlands so far is the 30 MW/68 MWh 'Project Pollux' BESS. Developed and operated by Alfen NV (Alfen) and SemperPower the facility became operational late last year.

Which country has the largest battery energy storage system?

Featuring a total of 144 Fluence cubes spread across a 6000m<sup>2</sup> site, the Netherlands' 'largest' stand-alone Battery Energy Storage System (BESS) will on average store the energy supply equivalent for 21,500 households per day. What is a battery storage system & why is it important?

Construction is set to commence in the coming months and arranged in partnership with infrastructure fund EPICo<sup>2</sup>, Macquarie Capital and lender ABN Amro. To fully utilise the potential of renewable energy, battery storage technology is becoming crucial for balancing supply and demand in the electricity grid.

Is energy storage a viable investment?

As the first of its kind to secure full project financing, it proves that energy storage is not just viable--it's investable." Added Jeroen Althoff, co-founder of Lion Storage: "With cutting-edge technology and strong strategic partnerships, we're driving a smarter, more resilient energy future and setting the bar for what's next in Europe."

RWE is further expanding its battery storage business worldwide. The company has now started construction of its first utility-scale Dutch battery storage project with an installed ...
