

Electricity System Home Cost Solar Photovoltaic Panels

How much does a residential solar system cost?

Using these numbers, an average-sized 8-kilowatt residential solar system would cost between \$21,900 - \$26,400. Regional pricing differences, the system size, local installation costs, inclusion of home battery backup, and local incentives are other factors which affect the final cost.

Are solar panels worth it?

The federal solar tax credit may reduce the net cost to \$20,552, and local incentives can further lower the cost. You can determine whether solar panels are worth it for your home by considering various factors, such as local incentives and policies, your electric bill, and how you finance the system.

Is home solar more affordable than paying for utility electricity?

Although home solar is already more affordable than paying for utility electricity, there are a few ways to reduce the cost of your system and maximize your energy cost savings. First, there are solar incentives offered by federal, state, and local governments, in addition to utility providers.

How much do solar panels cost?

The price of solar panels changes depending on where you live, but the average for installation is just under \$29,000 or \$2.75 per watt. On the high end, we talked to a solar customer in Hawaii who spent \$100,000 going solar. Dion in Nevada said their 10-kW system cost about \$20,000, which is about the national average price for a 7-kW system.

How much does it cost to install solar panels in Texas?

As of 2024, the average cost of installing 11 kW of solar panels in Texas was \$29,589, and the national average was \$29,926. It's worth noting that these are the total costs before any federal tax credits (see the .gov eligibility breakdown), utility provider incentives (see our SolarSPARC#174; incentive rebate), or buyback programs are deducted.

How much does solar installation cost?

On the high end, we talked to a solar customer in Hawaii who spent \$100,000 going solar. Dion in Nevada said their 10-kW system cost about \$20,000, which is about the national average price for a 7-kW system. What else affects solar installation costs?
