

# Energy Storage and New Energy Foreign Companies

Why did DTEK launch the largest battery storage facility in Eastern Europe?

DTEK has launched the largest battery storage facility in eastern Europe to bolster Ukraine's energy system ahead of expected mass Russian attacks on infrastructure this winter, the Ukrainian energy giant announced on Sept. 10.

Is lithium ion the future of stationary energy storage?

The second gap involved technology. "I didn't believe lithium ion was the future of stationary energy storage," Michaelson says, referring to fixed-location energy storage systems for homes, businesses, and industrial facilities--distinct from mobile applications like electric vehicles. The third gap went deeper than business fundamentals.

Why did affiliate Energy Group invest in the Sun Company?

Kim Eaves, president of Affiliate Energy Group, invested specifically for the technology's practical benefits: "I chose to invest in The Sun Company and The BESS Company because their technology directly tackles the demand charges and peak power costs that have long burdened my customers.

We supply you individually with the latest mobile and stationary energy from lithium-ion-based technologies. We offer to support you with your required energy storage device, all the way ...
