Can the SolarEdge home battery be floor mounted?

The SolarEdge Home Battery can be floor mounted with each battery secured in a floor mount battery stand. The floor mount stand is provided as a kit that is purchased separately from the SolarEdge Home Battery. This document lists the contents of the SolarEdge Home Battery Floor Mount stand kit.

How do you connect a battery to a floor mount inverter?

Hang the battery on the wall mount. Turn OFF the battery. Open the wiring gutter on the left side of the floor mount base and lay the wires in place. Pass the cables through the wiring sleeve on the top left side of the floor mount base and connect to the battery. If installing more than one battery per inverter, use branch connectors.

How do you install a floor mount base?

Move the floor mount base close to the wall to which it will be secured. Position the base so that the front of the base is parallel to and facing away from the wall. Set the height of the base mount using a 5mm Allen wrench to adjust the screws for each floor mount base leg. Use a spirit level to make sure that the base is level.

How do you mount a battery holder?

Loosely screw the M8 (1/2") nuts onto each back holder and base studs to hold the back holder in place. Fully tighten at 17Nm/150 in-lb to finally secure the back holder. Hold the wall mount with the front facing you and position the mount on the securing studs of the back holder's battery mounting bracket.
