

Four types of energy storage projects in Iraq

This project represents China's first grid-level flywheel energy storage frequency regulation power station and is a key project in Shanxi Province, serving as one of the initial pilot demonstration ...

Let's face it: when you think of Iraq, energy storage isn't the first thing that comes to mind. Oil? Sure. But with global shifts toward renewables and Iraq's own electricity shortages, the country ...

Well, here's the thing - Iraq's Ministry of Electricity finally greenlit six utility-scale battery storage projects in Q1 2024. These aren't your grandpa's lead-acid batteries either. We're talking ...
