

France sells energy storage power

What is the largest battery-energy storage project in France?

Total has announced the largest battery-energy storage project in France- a 25 MWh/25 MW system to be installed later this year in Mardyck, at the Flandres Center, in Dunkirk's port district.

Does France have a natural gas storage facility?

France has a number of commercial natural gas storage facilities located across the country. There is no public or strategic natural gas storage in France and underground natural gas storage facilities are an essential tool for allowing operators to balance their systems and optimise their gas use.

What is Envision Energy's first independent battery energy storage contract in France?

After previous triumphs in Europe, this project represents Envision Energy's first independent battery energy storage contract in France. Envision Energy will provide a minimum of a 14-year long-term maintenance (LTSA) agreement, starting construction in June 2025, ensuring ongoing presence in the area once the construction phase is complete.

Is France a key market for Envision Energy?

Henry Peng, Senior Vice President and President of Latin America and European Region, Envision Energy, stated: "France is a key market for Envision Energy as we expand our presence across Europe, and our partnership with Kallista Energy marks a significant milestone in this journey."
