

Heishan Photovoltaic Power Station Off-Grid Inverter

What is the most powerful off-grid inverter?

The SA-12K is the most powerful off-grid inverter developed by SolArk. With 9kW, it has no problem to power a fully off-grid house. It features 2 MPPT solar charge controllers that allow up to 13kW of solar panels. This is more than enough to cover the daily needs of the average American house.

What is the EasySolar-II solar inverter?

The EASYSOLAR-II is the latest update of Victron's EasySolar series. A high-quality all-in-one inverter that includes an efficient MPPT solar charger (up to 5800W of PV power) and a smart inverter. The EasySolar-II can be connected to the utility grid and to a backup generator at the same time.

Do I need a split-phase inverter?

Though, in some instances, you may need a split-phase inverter capable of outputting both 120 Volts and 240 Volts to power larger appliances like central AC units and dryers. Additionally, consider the frequency and waveform of the inverter's output.

In addition, it has a separate photovoltaic factory with a site area of 20,000 square meters. It has three technical centers, providing O D M, OEM and other services, and has strong technical ...
