

How much does 3000 watts of solar energy cost

How much does a solar system cost per watt?

As of publishing, the average cost per watt is \$2.84. Most solar companies set the price according to the solar system's wattage. A solar installation's "cost per watt" is a little like the "price per square foot" when you buy a house. It helps compare the value of solar energy systems in different sizes.

How much does a 3KW Solar System cost?

As of January 2022, the average cost of solar in the U.S. is \$2.77 per watt (\$8,310 for a 3-kilowatt solar system). That means that the total cost for a 3,000 watt (3kW) solar system would be \$6,149 after the federal solar tax credit discount (not factoring in any additional state rebates or incentives).

How much energy does a 3 kW solar system generate?

A 3 kW solar panel system generates approximately 4,356 kWh of electricity each year. That's enough to keep 79 TVs running, power 3 refrigerators, or meet the energy needs of an RV (the average U.S. shopper on EnergySage needs about 11 kW of solar for their home). But what else could it do?

How much energy does a solar system generate?

Just like the price, the amount of energy your solar system generates may differ depending on location. For instance, a 3 kW solar panel system in sunny Florida will produce more electricity than an identical sized one located in Oregon.

How much do solar panels cost?

The price of solar panels changes depending on where you live, but the average for installation is just under \$29,000 or \$2.75 per watt. On the high end, we talked to a solar customer in Hawaii who spent \$100,000 going solar. Dion in Nevada said their 10-kW system cost about \$20,000, which is about the national average price for a 7-kW system.

Should I install a 3 kilowatt solar system on my home?

If you have high electricity bills, installing a 3,000 watt (3 kilowatt) solar energy system on your home can be a great way to reduce your monthly costs. In order to maximize your long-term solar savings, you want to be confident that you're getting a good price for your solar energy investment.
