

Huawei 3kw photovoltaic grid-connected inverter

How to use a Huawei hybrid inverter?

By default, the Huawei inverter prioritises electricity sources in the following order: 1 = solar panels, 2 = solar batteries, 3 = networks. Single phase inverter: connect your Huawei Hybrid inverter on your house to a single phase network. If you wish to work on a three phase, it's very easy: you order 3 inverters to insert in each phase.

How does a Huawei power inverter work?

The inverter determines the most economic source of electricity for you, between photovoltaic, batteries and the electricity network. It regulates battery charging to maximise their lifespan. The Huawei Power inverter sends your data free over the internet via Wifi. You can analyse its performance online.

What is a Huawei sun2000 3kTL-M1 3KW three-phase inverter?

The Huawei SUN2000-3KTL-M1 3kW Three-Phase Inverter offers an intermediate solution within the three-phase models of Huawei's new KTL range.

What is the maximum input PV power for a Huawei inverter?

Recommended max. PV power 1 * 1. The inverter max input PV power is 10,000 Wp when long strings are designed and fully connected with optimizers. Disclaimer: The preceding values are measured by an internal laboratory of Huawei in a specific environment.

Which three-phase hybrid inverter is right for You?

The Huawei SUN2000-MAP0, SUN2000-MBO and SUN2000-TL-M1 series of three-phase hybrid inverters combine high efficiency with state-of-the-art storage integration. They are ideal for homes, apartment buildings and commercial facilities that want to maximize their self-consumption and reduce their electricity costs in the long term.

Are hybrid inverters a future-proof choice for modern PV projects?

Their three-phase unbalanced load capability, IP65/66 housing and smart connection via WLAN, RS485 or optional 4G make them a future-proof choice for modern PV projects with storage integration. Discover more about the technology behind the hybrid inverters.

SUN2000-50KTL-M3 (Smart PV Controller), delivering more usable energy, allows businesses and commercial parks to save on electricity bills. Safer and more reliable, the solar inverter works ...
