Will Huawei supply battery energy storage technology to world's largest solar project?

Huawei Wins Bidding to Supply BESS Technology to World's Largest PV Energy Storage Project (Yicai Global) Oct. 22 -- A subsidiary of China's Huawei Technologies has won the bidding to supply battery energy storage system technology to the world's largest solar power storage project, according to The Paper.

How does Huawei's energy storage solution work?

Huawei's energy storage solution solves the problem of operating large independent photovoltaic energy storage networks safely and stably and cuts the cost of electricity generation in the project's life cycle to less than 10 US cents per kilowatt hour, Huawei told The Paper.

What is Huawei fusion solar smart string energy storage solution (ESS)?

Central to this vision is Huawei's FusionSolar Smart String Energy Storage Solution (ESS). This solution will enable the Red Sea Project to independently meet its power needs. The microgrid solution addresses the intermittent and fluctuating nature of solar and wind power. It ensures the safe and stable operation of renewable energy systems.
