

Is energy storage a problem in Ireland?

"A lot of energy storage has crept under the radar so far in Ireland," he told ESS News. Developers secure planning quite easily but the route to market is a challenge. Energy storage has the opposite problem to the wind industry where planning is an obstacle but the route to market is there.

What types of batteries can be stored in Ireland?

These include lithium-ion batteries, hydrogen storage, thermal storage, flow batteries and pumped hydro storage. However, thermal storage fell outside of the focus on electricity storage and the potential for additional pumped hydro storage in Ireland is considered to be fairly limited and so neither were modelled in detail.

How much battery storage do we need in Ireland & Northern Ireland?

In 2021 energy experts Baringa estimated that to hit the 80 per cent renewable electricity targets in Ireland and Northern Ireland by 2030 we would need at least 1,700 MW of battery storage on the island of Ireland. Every battery storage project connected makes our electricity grid more secure and helps to integrate wind and solar power.

Is there a free battery storage system in Ireland?

Just like there is no way to get free solar panels in Ireland at the moment, there unfortunately is no such thing as a completely free battery storage system. That being said, by offsetting your energy bills by a considerable amount, a battery storage system will completely pay for itself over time.

Can energy storage save money in Ireland?

By contributing to security of supply, helping to support renewable capacity, and displacing fossil fuels in the balancing market, energy storage can deliver a net saving to end consumers in Ireland of up to EUR85m per year.

Which energy storage companies are working in Ireland?

Statkraft delivered the first energy storage project in Ireland with Fluence in 2020, at its Kilathmoy wind farm and the company has continued to have a strong presence in the Irish energy storage field since then. The company is also lining up another milestone project soon, with the country's first four-hour duration energy storage system.
