

Large-capacity energy storage dual-cycle battery

2 days ago· LAS VEGAS, Sept. 10, 2025 /PRNewswire/ -- At RE+ 25, Sunwoda (Stock Code: 300207), a global full-scenario energy storage solution provider, unveiled two groundbreaking ...

Furthermore, the self-stratified property and the use of pure metal/alloy electrodes facilitate efficient battery recycling. As a result, LMBs offer attributes such as high safety, long ...

Here, a layered nitrogen-doped carbon anode has been prepared using a one-step pyrolysis method with excellent Li + storage sites. The large lattice spacing of 0.55 nm provides more ...
