

Lithium battery with power frequency inverter

This Pure Sine Wave Solar Inverter is a combination of an inverter, ac battery charger, MPPT solar charge controller and AC auto-transfer switch. High transfer efficiency is above 85%, built ...

High transfer efficiency is above 90%, complete isolate surge interference of input & output's voltage and current, Impact resistance, super load capacity, built-in AVR stabilizer, continuous stable pure sine wave output. Battery typesetting choose : SLA / AGM / GEL / Li-ion ...

Lithium battery with power frequency inverter
