What is a container house Mauritius?

A Container House Mauritius is a type of accommodation consisting of one or more units that have been designed, furnished and manufactured to create a comfortable space. This initiative is much more economical than traditional construction projects. The most important reason for this is that it requires only the purchase of containers and labor.

How much labor is required to build a container house Mauritius?

The construction of Container House Mauritius requires a lot of labor compared to traditional construction. Occupational accidents occur in construction projects every year, and no matter how much precautions are taken in traditional construction methods, accidents cannot be prevented. However, building container homes requires very little labor.

Can I move my container house in Mauritius?

When you want to change your location, you can move your container house to the location you want as in the assembly phase. As Karmod, we produce container houses that suit your needs. Container house in Mauritius offers you a long lasting experience.

Why should you choose container house Mauritius?

Container House Mauritius will become more economical for you if you already own a location. It is also an ecological alternative, as recyclable materials are also used. Container House Mauritius reduce the use of materials such as wood or concrete thanks to its advanced technology. In addition, its content is completely changeable upon request.
