

Myanmar energy storage battery usage distribution

Does Myanmar have a battery market?

Yes, Myanmar has a battery market. Myanmar's battery market depends majorly on automotive application segment.

What is driving the growth of the Myanmar battery market?

The automotive segment is expected to witness significant growth during the forecast period, owing to the increasing demand for new vehicles produced in the country. Potential growth of lithium-ion batteries in electric vehicle (EV) market is expected to create immense opportunities for the Myanmar battery market in the coming years.

Will lithium-ion battery market grow in Myanmar?

The potential growth of lithium-ion batteries in the electric vehicle (EV) market is expected to create immense opportunities for the Myanmar battery market in the coming years. The automotive segment is expected to witness significant growth during the forecast period, owing to the increasing demand for new vehicles produced in the country.

Which application segment dominates the Myanmar battery market?

The Myanmar battery market is expected to register a CAGR of greater than 1.5% during the forecast period of 2021 - 2026. Myanmar's battery market depends majorly on automotive application segment. With the COVID-19 pandemic in 2020, the market witnessed a significant decrease in sales.

Who are the major players in Myanmar battery market?

The Myanmar battery market is consolidated, with some of the major players including Siam GS Battery Myanmar Limited, Schneider Electric SE, Toyo Battery Myanmar Co. Ltd, and Panasonic Corporation.

How has Myanmar's energy consumption changed over the years?

Myanmar's total final energy consumption (TFEC) increased by about 2.3% per year from 9.4 Mtoe in 1990 to 17.46 Mtoe in 2017. The transport sector grew the fastest with an AAGR of 7.5% between 1990 and 2017. Consequently, this sector's share of the TFEC increased from around 4.7% in 1990 to almost 17.8% in 2017.

This scenario encapsulates Myanmar's energy storage dilemma - a nation where "reliable" power often feels like chasing monsoon winds. As Southeast Asia's final frontier for energy ...
