

Nauru battery cabinet brand

What is a batteryguard lithium-ion fire resistant battery cabinet?

The Batteryguard lithium-ion fire resistant battery cabinet offers the solution against battery fire thanks to a solid fire-resistant construction. An EN 15659 LFS60P-certified cabinet with fire-resistant properties is used as the basis. In these cabinets you can safely store and simultaneously charge (bicycle) batteries.

What are batteryguard accumulator cabinets?

Therefore, Batteryguard has developed a range of reliable accumulator cabinets for the storage of lithium-ion batteries. By using advanced technology and high-quality materials, Batteryguard cabinets provide maximum protection against potential fire and explosion hazards. For more information, also visit batteryguard.com.

Why is my batteryguard Battery Cabinet not working?

Damage inside the battery can be caused by dropping the battery or bumping it against something. This damage will not be visible on the outside. For additional safety, you can equip your Batteryguard battery cabinet with an automatic fire suppression system.
