

New Zealand photovoltaic energy storage inverter manufacturer

What types of solar inverters are available in NZ?

There are different types of inverter available. This includes inverters that can connect to the electricity grid based on your home's connection. One of the most common types of solar inverter in use in NZ, however, is the hybrid inverter.

Who are Sungrow solar inverters?

A global inverter and storage manufacturer with a complete range of products for solar and storage projects in Australia and New Zealand. Sungrow make a complete range of solar inverters and energy storage products for residential, commercial, industrial and utility grade solar projects.

Who installs sigenergy hybrid inverters & energy storage solutions in New Zealand?

Planet Electrical is proud to install Sigenergy hybrid inverters and energy storage solutions across New Zealand. With their advanced technology, reliability, and efficiency, Sigenergy is an excellent choice for anyone looking to reduce energy costs, maximize solar power, and achieve energy independence.

What is an inverter & energy storage solution?

There is an inverter and energy storage solution for every application including grid connected, backup power and off grid. Designed specifically to suit Australian and New Zealand conditions and safety design standards.

What is Enphase microinverter technology?

Fifteen years of solar innovation gives you tomorrow's solar today. Most solar systems connect all their panels to a single inverter. Enphase microinverter technology places an inverter under each solar panel. You get peak performance and bill savings in all conditions. Safer, Smarter, Tougher.

What is Sungrow energy storage?

Sungrow have developed an innovative energy storage solution for residential applications. This battery system can be used to store excess solar generated for use at night, provide backup power for when the grid goes down or for full time off grid applications.
