

New base station for wind power communication

Due to dramatic increase in power demand for future mobile networks (LTE/4G, 5G), hybrid-(solar-/wind-/fuel-) powered base station has become an effective solution to reduce fossil fuel ...

This paper designs a wind, solar, energy storage, hydrogen storage integrated communication power supply system, power supply reliability and efficient energy use through energy storage ...

Wind-solar hybrid power system based on the wind energy and solar energy is an ideal and clean solution for the power supply of communication base station, especially for those located at ...

New base station for wind power communication
