

Who uses Nordic storage?

Nordic Storage controls more than 1 million cubic meters of storage capacity for bulk liquids. The customers range from international oil companies and traders to CSO companies and Scandinavian oil companies, industrial companies and energy producers.

Where is Nordic storage located?

Nordic Storage's storage terminals are strategically located along the Swedish coast (Gothenburg, Helsingborg, Malmö, Norrköping, Oskarshamn and Gäddede) and in Denmark, in Aalborg. Nordic Storage offers services for a wide range of energy products (distillates, aviation fuels, biofuels, vegetable oils, fuel oils) and chemicals.

What does Nordic batteries do?

We develop battery modules, racks and energy storage systems designed to power industrial applications across challenging sectors, including construction, maritime, defence, and grid systems. At Nordic Batteries we focus on what is important: safety, reliability and performance.

Where can I find information about energy storage companies?

For more information about energy storage companies, visit their official websites. If you are looking for a top energy storage company, Huntkey is the best choice, committed to providing products, solutions and services across the entire energy value chain.

Is Northvolt a good energy storage company?

Northvolt, as one of the top 10 energy storage companies in Sweden, founded in 2015 by former Tesla executives, is a Swedish battery manufacturer specializing in lithium-ion technology for electric vehicles and energy storage.

Are Nordic batteries looking for a development engineer?

Nordic Batteries are seeking a development engineer for mechanical construction and system design. Factor 47 is operative! The pilot line where Nordic Batteries will produce their first battery modules is now officially open after the visit from former Prime Minister Erna Solberg where she cut the banner to kick it off.
