

North Africa Customized Energy Storage Container Manufacturer

Are our energy solutions made in Africa for Africa?

We pride ourselves that our energy solutions are made in Africa for Africa." Pre-installed 20ft solar container with all equipment for 33kWp of PV and up to 96kWh battery storage. Innovation in containerised electrification

What makes our containerised solar power generation units special?

"What makes our containerised solar power generation units special," says Tobias, "is our use of international lquality engineering and components, while still producing local content that allows us to offer a price advantage and local support. We pride ourselves that our energy solutions are made in Africa for Africa."

What is a container energy storage system?

A Container Energy Storage System (ESS) is a modular, scalable solution for storing electrical energy. It typically consists of batteries housed in a shipping container, which makes it easy to transport and deploy. These systems can be used for various applications such as grid support, renewable energy integration, and backup power.

What is a container energy storage system (ESS)?

What exactly is a Container Energy Storage System (ESS)? A Container Energy Storage System (ESS) is a modular, scalable solution for storing electrical energy. It typically consists of batteries housed in a shipping container, which makes it easy to transport and deploy.
