SolarScapes are designed to work perfectly with our LSX & GSX Module Systems and are the most aesthetic mounting solutions available. How can I buy Lumos Solar panels and mounting systems? We only sell to Lumos Authorized Professionals to ensure that you have the best experience possible with Lumos products.

Should you go solar if your home is not suitable for solar?

If your home is not suitable for rooftop solar, you can still get the benefits of clean energy by investing in a community or shared solar program. By going solar, you can play an active role in achieving the nation's goal of a carbon-free electricity sector by 2035. For more information, visit the Homeowner's Guide to Going Solar.
