

Outdoor solar integrated awning

What is a solar awning?

Solar awnings offer a combination of practical use and green energy, transforming buildings into power-generating hubs while enhancing architectural appeal. Lumos specializes in designing solar awnings that fit into structures, providing energy efficiency, shade, and style all in one package.

What are Lumos solar awnings?

Lumos solar awnings feature customizable designs that focus on architectural needs and energy performance-- ideal for commercial facades or home patios. By extending outward from existing structures, our awnings create shaded spaces that reduce heat, improve comfort, and lower cooling costs.

Why do you need a solar-powered retractable awning?

With your beautiful outdoor space left abandoned, there is wasted potential for gatherings, after-work relaxation and enjoying a breath of fresh air with the family. That's why we created the Furrion Lumina solar-powered retractable awning -- your solution to designing your outdoor paradise.

Why should you choose a solar-powered awning?

Embrace substantial energy savings on multiple fronts. Not only does the solar-powered system minimize your reliance on traditional power sources, but the very presence of the awning itself delivers cooling comfort. Enjoy a sheltered oasis, shielded from the sun's harsh rays, reducing temperatures by up to 20 degrees.

What are solar canopies & awnings?

Solar canopies, awnings, and walkways represent a forward-thinking approach to energy generation-- blending sustainability, practicality, and beauty into a single, elegant solution.

What makes Furrion solar powered awnings different?

Furrion powered awnings stand out from the competition with our cutting-edge solar-powered technology. Unlike other outdoor awning options that require expensive electrical work to install outlets or hardwiring, our solar-powered awnings harness the green energy of the sun, allowing you to embrace sustainability with flexible installation options.

?Solar Powered Electric Awning?Yoolax motorized awnings are powered by solar with a built-in lithium battery, providing cost-effective shading. A full solar charge (6-10 hours) allows for ...
