Welcome to Palau Telecoms! Palau telecoms offers you... Connect to the world with Palau Telecoms Wireless Internet connections. Read more... We sell, service and repair radio equipment used in communication. Read more...

Why is technology so important in Palau?

"It's not just about advanced technology; it's about bringing people together, connecting our remote islands, and increasing resilience for the entire nation," says Simon Fraser, CEO, Palau National Communications Corporation.

Does Palau have high-speed internet?

This sentiment is further demonstrated by the company's provision of high-speed internet to Palau's schools. In 2023, the company joined hands with Palau's Ministry of Education and Ministry of Health and Human Services to build a high-speed fibre optic private network to connect all public schools in Palau, the first in the Pacific Islands.

Does Palau have a 3G network?

PNCC owns and operates Palau's largest 3G/4G mobile network, which today has approximately 98 percent population coverage, and is delivered via almost 60 cell sites throughout the main archipelago.

Will Palau have fast fibre optic connections?

In the near future, Palau will have fast fibre optic connections across the entire country via PNCC's Reconnect 3 Grant Programme funded by the US Rural Utilities Service (RUS), however, schools remain the primary focus in the shorter term.
