

Installing solar panels gives households direct access to clean energy, promoting self-sufficiency. In rural areas where grid connections are difficult, solar energy is a flexible solution. It not only ...

In June 2016, a solar farm in the Molodechno area with a capacity of 5.7-5.8 MW was launched - more than any of the previous ones, not only in Belarus, but also in Estonia, Lithuania, Latvia and Poland. In August of that same year, the Solar II [uk] farm was opened in Bragin District, more than three times its predecessor's capacity. In 2017, about 30 photovoltaic power plants with a total capacity of about 41 MW were used. In the same year, the largest photovoltaic farm in Rechytsa
