

Siamese high-power inverter

Which inverter is best?

And they are the most economical choice as well. KISAE Pure Sine Wave (True Sine Wave) inverters offer the most reliable wave form available, providing power almost identical to utility power - no harmonic distortion, noise or excess heat.

What is Kisae modified sine wave power inverter?

KISAE Modified Sine Wave power inverters offer a 'stepped' wave form that achieves voltage regulation by varying its width according to the battery voltage and the load being powered. Consequently, the wave form is not smooth like a Pure Sine Wave is.

What is a 1000 watt sine wave power inverter?

Premium 1000 watt true sine wave power inverter. Provides clean, pure sinewave power ideal for sensitive electronics. Low battery shutdown prevents total battery discharge. GFCI & breaker protected (North American model only). Over temperature shutdown. USB port for charging USB equipped devices. Available in both 120Vac and 230Vac output voltages.

What is a pure sine wave inverter?

KISAE Pure Sine Wave (True Sine Wave) inverters offer the most reliable wave form available, providing power almost identical to utility power - no harmonic distortion, noise or excess heat. They are the preferred choice for powering 'sensitive loads' like onboard electronics and demanding motor loads.

Which appliances need a pure sine wave inverter?

Some appliances also require a Pure Sine Wave to run properly, including: digital clocks, light dimmers, variable speed motors, battery chargers, and audio/visual equipment. Because of their higher qualities, Pure Sine Wave inverters represent a more expensive purchase choice.

What is a peak power inverter?

Excellent Peak Performance: With a peak surge power of up to 4000W, this inverter can easily cope with sudden high load situations and ensure the stable operation of various loaded appliances outdoors. Whether it's starting up high power equipment or responding to emergencies, it's easy to handle.

The Kisae Pure Sine Wave Power Inverter with Transfer Switch converts 12 Volt battery power to 120 Volt household AC power identical to that supplied by the local utility company. Ideal for ...
