

Singapore container power generation manufacturers

How does an off-grid energy storage container module work?

The Off Grid Energy Storage container module could be mounted with Solar and/or connect to a Generator set for multi-purpose usage. For instance, a 60kWh Hybrid Genset +Solar +Battery is sufficient to power three to four 20-foot air-conditioned containerized site office for 8 to 10 hours a day.

Why should you choose a containerised generator?

Fire Detection Panels and Intruder Alarms: Enhanced safety and security. Our containerised generators are suitable for a wide range of applications, including: Super Silent: Super silent 65dBA at 1m for prime power running diesel and gas. Critical Backup Power: For MOD, NHS, and HMP sites, ensuring reliable performance in emergencies.

Are CPs generator containers controlled by DSE?

Our generators are coupled with Mecc Alte, Stamford, or Leroy Somer alternators and controlled via DSE or ComAp control panels to ensure top-notch performance. Why Choose CPS Generator Containers?
