

Slovakia solar charging communication high-voltage battery cabinet

Who is Slovak solar?

Slovak Solar s.r.o. is a leading photovoltaic wholesaler in Slovakia, Czech Republic and Austria, with a vision to create a sustainable energy future. We started our journey in 2009 with the main idea - to provide companies specialised in the installation of solar systems with access to first-class photovoltaic products, all from one place.

Why should you choose Slovak solar?

At Slovak Solar, we believe that progress comes from constant innovation. From day one, we've been breaking new ground in Slovakia's solar energy sector. We were one of the first company in Slovakia to install Building-Integrated Photovoltaics (BIPV).

What is BIPV & how does it work in Slovakia?

From day one, we've been breaking new ground in Slovakia's solar energy sector. We were one of the first company in Slovakia to install Building-Integrated Photovoltaics (BIPV). We led the way with the first-ever 400kWh Battery Backup System, even before container-based battery systems became mainstream.

Rack-mounted lithium battery integrates BMS and cells, enhancing backup efficiency, safety, and reliability. Analyzing data across modes and scenarios ensures high-quality ES products via ...

PCS-8812 liquid cooled energy storage cabinet adopts liquid cooling technology with high system protection level to conduct fine temperature control for outdoor cabinet with integrated energy ...
