

Solar panel prices in Malaysia

How much do solar panels cost in Malaysia?

The first and most significant expense when installing solar panels is the upfront cost of the system. This includes solar panels, an inverter, mounting hardware and installation fees. On average, the cost of a solar panel system in Malaysia is between RM15,000 to RM40,000 depending on the size of the system, which is measured in kilowatts (kW).

Can solar panels save money in Malaysia?

The Malaysian government, through programmes such as Net Energy Metering (NEM) scheme, allows solar panels owners to sell excess energy back to the grid, reducing electricity costs further. Additionally, tax incentives may be available for those who install solar panels, which can significantly reduce the overall cost.

What are the different types of solar panels in Malaysia?

Some of the common brand of solar panels in Malaysia include First Solar, Jinko, GCL, Hanwha. Another factor in the overall cost to install solar panels for your home is the inverter. For a really cost-sensitive installation you can find an unknown brand generic inverter but be careful because you'll get what you pay for.

Why are solar panels becoming popular in Malaysia?

Solar panels are becoming increasingly popular in Malaysian households as a way to reduce electricity costs and help the environment. Solar panels offer a sustainable, long-term solution for reducing electricity bills while contributing to a cleaner environment.

How many solar providers are there in Malaysia?

There are more than 20 solar providers in Malaysia, and their offerings can vary. We suggest considering their reputation, reviews, experience, and the warranties provided for hardware like solar panels and inverters, as these significantly impact the performance of your solar system.

Are solar panels rethinking energy strategies in Malaysia in 2025?

As solar panel prices in Malaysia reach historic lows, businesses and homeowners are rethinking their energy strategies in 2025. The new electricity tariff structure implemented July 1, 2025, combined with enhanced Self-Consumption (SelCo) programme benefits, has made solar panel installation in Malaysia more attractive than ever.
