

Solar power assist system

What is solar assistant?

Results are only viewable after voting. Solar Assistant is a solar system monitoring and remote control app. It can also be used for home automation and load control. I am using this poll to measure it's popularity on the forum. I have never used it before, but am curious how many people are using it.

What is solarassistant & how does it work?

Take advantage of the most powerful, low cost and globally available device on the planet: the Raspberry Pi. Metrics are live up to 2 seconds. SolarAssistant is a standalone system that can be used without the internet. However when you are away from home all features are available remotely via the internet.

What is grid-assisted solar power?

Traditional grid-assisted solar power consists of a solar panel system that is connected to the grid. The system provides power to the home, any excess power is sent to the grid. At night, homes with a traditional grid-connected system draw power from the grid. The second kind of grid-connected system is the solar energy storage system.

Do you prefer solar assistant over Sol-Ark?

Solar Assistant is a solar system monitoring and remote control app. It can also be used for home automation and load control. I am using this poll to measure it's popularity on the forum. I have never used it before, but am curious how many people are using it. Yes. I prefer it over the PV Pro app Sol-Ark offers. Vote cast ?
