

The company focuses on the layout of photovoltaic inverters

Who makes solar photovoltaic inverters?

In 2020, Swiss industrial giant ABB Group sold its photovoltaic inverter business to Italian company Fimer SpA. This transaction has made Fimer a globally renowned manufacturer of solar photovoltaic inverters.

What are the best solar inverter exhibitions in the world?

Here are the most prominent global exhibitions for solar inverters: Intersolar Europe (Munich, Germany): The world's leading solar exhibition, featuring the latest inverter technologies and attracting thousands of professionals annually.

Who makes Sungrow solar inverters?

Sungrow Company History: Established in 1997 in Hefei, China, Sungrow is one of the world's largest and most respected solar inverter manufacturers. Product Range: Sungrow provides a broad portfolio, including string inverters, central inverters, and energy storage systems for all market segments.

Why are industry exhibitions important for solar inverters?

Industry exhibitions are vital for showcasing innovations, fostering partnerships, and staying abreast of market trends. Here are the most prominent global exhibitions for solar inverters:

Is Sungrow Power a leader in the PV inverter market?

Fast forward to 2022, Sungrow Power emerged as the global leader in the PV inverter market, surpassing all competitors with nearly 8 gigawatts (GW) of shipments. Main Products: String inverters, central inverters, and energy storage inverters.

What types of solar inverters does Fimer offer?

FIMER focuses on providing photovoltaic solutions such as central inverters, series inverters, and microgrid solutions for large-scale venue scenarios. From single-phase and three-phase series inverters to central inverters, it is renowned for having the widest range of solar inverter types.
