

## Three-phase inverter current

The DC link current  $I_{dc}$  of the inverter can be calculated from electrical analysis of the inverter. If your active output power is  $P_o = 3 I_{ph} V_{ph} \cos \phi$  and the conversion efficiency is  $\eta$ , then ...

Renewable based power generation system and their grid interconnection throughout the world. Due to large penetration of renewable sources into the grid, maintenance of power quality, grid ...
