

Timor-Leste energy storage project put into operation

What is the Timor-Leste solar power project?

The Project involves the construction and 25-year operation of a new power plant in Manatuto, Timor-Leste, comprising a 72 MW solar power plant co-located with a 36 MW/36 MWh battery energy storage system. This will be the country's first full-scale renewable energy IPP project.

Will Timor-Leste's first solar power project integrate with a battery energy storage system?

In a landmark moment for Timor-Leste's energy future, a Power Purchase Agreement (PPA) has been officially signed for the country's first-ever solar power project integrated with a Battery Energy Storage System (BESS).

Why should Timor-Leste invest in solar & storage infrastructure?

José added: "The investment in Timor-Leste's solar and storage infrastructure is transformative. It will help reduce dependence on fossil fuels while improving grid stability and energy access across the country". José de Ponte was supported by special counsel Marnie Calli, senior associate Lisa Huynh and solicitor Jeraldine Mow.

Will Timor-Leste have an energy policy?

The Secretariat of State for Energy Policy, responsible for this sector, has already defined an action plan and started to put it in action. A study was done, at the national level, which will allow the development of an energy policy for Timor-Leste.

Who bids for solar IPP project in Timor-Leste?

For Timor-Leste, bidders are typically from legacy countries such as Indonesia, Portugal and People's Republic of China. For the Solar IPP project, Government of Timor-Leste represented by the Ministry of Finance has provided backstop guarantee for ECTL obligations under the Implementation Agreement.

Does Timor-Leste provide backstop guarantee for ECTL obligations?

For the Solar IPP project, Government of Timor-Leste represented by the Ministry of Finance has provided backstop guarantee for ECTL obligations under the Implementation Agreement. Special Investment Agreement, if concluded could allow the winning bidder a leasing of the Site at a concessional rate and other benefits.

2 days ago; Timor-Leste is poised to significantly advance its renewable energy sector with a new rural electrification program. This initiative will deliver 35 MW of solar power to off-grid ...

The world's largest standalone lithium-ion (Li-ion) battery energy storage system (BESS) project in operation today is the 3,000MWh Moss Landing Energy Storage Facility in California, while ...
