

Token Solar Photovoltaic Panels

Can Enel & Conio tokenize solar panels using the Algorand blockchain?

Enel Group, one of Italy's leading renewable energy companies, has partnered with crypto wallet provider Conio on an innovative project to tokenize solar panels using the Algorand blockchain.

Can solar panels offset electricity bills?

Owners can offset electricity bills using energy generated from the solar panels. Several novel use cases have emerged across the tokenization market over the past years. Italian green energy company Enel Group has entered the tokenization market to launch fractional ownership of solar panels on the Algorand blockchain.

Is Conio launching a solar-panel tokenization product in Italy?

On Jan. 21, Algorand Foundation chief marketing officer Marc Vanlerberghe announced a partnership between Conio and Enel Group that will launch a solar-panel tokenization product in Italy. Speaking to Cointelegraph, Vanlerberghe said the product will go live with an initial group of clients on Jan. 24.
